God our Father, in your wisdom and love you made all things. Bless these men, that they may be strengthened as Christian fathers. Let the example of their faith and love shine forth. Grant that we, their sons and daughters, may honor them always with a spirit of profound respect. Amen.

Living God’s Word

Some families always set an extra place at the table as a sign that guests are welcome to share their circle of nourishment.

Surely everyone is welcome at our eucharistic liturgies.

But do we make that spirit of hospitality a reality in our parishes?

fathers do play an important part in their children's lives; that the majority
of studies affirm that an involved father can play a crucial role particularly
in the cognitive, behavioral and general health and well-being areas of a
child's life; that having a positive male role model helps an adolescent boy develop positive gender-
role characteristics; that adolescent girls are more likely to form positive opinions of men and are better able to relate to
them when fathered by an involved father; that it is generally accepted, under most circumstances, a father's presence and
involvement can be as crucial to a child's healthy development as is the mother's; and that experi-
encing validation of their importance in the general parenting literature has made fathers much
more conscious of their value and, in turn, leads to their greater desire to be involved.
